WHAT THEY SAY ABOUT US

As an experienced teacher in Arizona, I can confidently say that Eazee.app Lesson plans have been an absolute

As a teacher, I have always considered lesson planning to be the most integral but challenging aspect

that makes lesson planning a breeze. I highly recommend eazee.app to all my fellow teachers; it's truly a must-have tool for any educator!

Sarah Mitchell
High School
Teacher

4-5 hours each week for two subjects. However, when I went through the Eazee app for high school lesson plans, I felt that the lesson plans were well-directed have exhaustive content for teachers with a variety of different instructional strategies. Every aspect of state standards, skills/sub-skills, and classroom navigation get well-covered. In my opinion, it's going to be a very useful addition to our school resources for effective teaching and learning.

Beenish Aslam

Principal

educational app
name Eazee app
for my maths
lesson planning of
MYP 4 and 5.I
found it to be
incredibly
helpful.The app
made it easy to
organise my
lessons and create
engaging discussion
questions for
lesson start up.
One of the
standout features
of the app was it's
inclusion of higher
order thinking
activities, as well
as support for slow
learners. I highly
recommend this
app to any teacher
looking for a tool to
help with lesson
planning and
student
engagement
