Find the best surrogacy centres in Hyderabad with advanced procedures, experienced doctors, and qualified medical staff.

Finding the Best Surrogacy Centre in Hyderabad?

Surrogacy in Hyderabad is a legal procedure that includes several legal formalities. Giving compensation to the [surrogate mother in Hyderabad](#) is illegal under Indian law, and she must be willing to help the intended parents as a selfless act. Only altruistic or gestational surrogacy is legal and available for Indian citizens, PIOs (persons of Indian origin), or OCIs (overseas citizens of India).

Exploring the Surrogacy Cost in Hyderabad

Surrogacy doesn't include surrogate mother costs in Hyderabad but includes several tests and examinations, which can increase the overall surrogacy cost. The surrogate mother cost in Hyderabad will increase as the intended parents need to provide medical insurance to the surrogate, which will last for three years.

What are the procedures involved in the surrogacy procedure in Hyderabad?

In a surrogacy procedure, a surrogate will carry the embryo of the female partner inside her womb and will later give birth to the child of the intended parents. The expert will conduct a medical examination of the surrogate mother and the intending parents to get a high success rate during pregnancy outcomes, as it will reveal the health of the eggs and sperm of the intended parents. It will also reveal infertility issues and the cause of infertility.

The [best surrogacy centres in Hyderabad](#) will arrange counselling sessions for the intended parents and surrogate mothers, as it will help in managing their mental state. The counselling will help the intended couple and the surrogate mother in Hyderabad manage their stress and anxiety levels.

SERVICES**

The expert will recommend certain fertility medicines to improve the quantity and quality of the egg. The fertility medications help release eggs into the uterus of the female partner. The expert will then retrieve healthy eggs using a catheter from the uterus of the intended female parent. The eggs will be retrieved from the follicles of the female partner using a sharp needle.

The best surrogacy centre in Hyderabad offers cheap surrogacy treatments for couples who face infertility issues. Infertility is a worldwide issue for couples, preventing conception. Only altruistic or gestational surrogacy is legal for Indian citizens, PIOs, or OCIs. The cost of surrogacy in Hyderabad involves procedures like several examinations, tests, fertility treatment, and legal procedures to ensure a safe journey for all parties involved. The cost of surrogacy in Hyderabad is between INR 15,00,000 and INR 25,00,000, which is so much cheaper than in countries like the USA.
